About Halotherapy

Halotherapy is also known as dry salt therapy. Dry pure pharmaceutical grade sodium chloride is ground into very tiny micro-particles in a special machine called a halogenerator. These dry salt micro-particles are then dispersed into the salt room. As you relax these particles are inhaled as well as land on the skin. These particles penetrate deep into the lungs as well as into the deep layers of the skin. It is a holistic, drug free natural therapy and promotes better breathing, healthier skin, sounder sleep, improved physical fitness, and all over wellness.

Halotherapy as been known to improve many conditions and symptoms some including:

- Allergies
- Asthma
- COPD
- Bronchitis
- Eczema
- Dermatitis
- Acne
- Dry Skin
- Ear Infections
- Sinus Infections
- Snoring
- Anxiety

*FDA has not evaluated the statements above. Statements made are not intended to diagnose, treat, cure, or prevent any diseases
